	Financial Status Report - All Non Medicaid – revised 7/31/2012	1 of 52

## 1.0 General Report Overview

The Financial Status Report (FSR) – All Non-Medicaid is a comprehensive report of all activity of the Community Mental Health Service Program (CMHSP). The FSR - All Non-Medicaid summarizes the revenues and expenditures of the CMHSP by program category. For each program category, the FSR – All Non-Medicaid will identify whether there is a net surplus or deficit prior to any redirection of funding. The FSR – All Non-Medicaid will also identify, for each program category, any funding redirected to meet match requirements or provide supplement to other program categories.

The FSR – All Non-Medicaid will be utilized by the Michigan Department of Community Health (MDCH) as a tool to monitor the fiscal operations of the CMHSP. In addition, this report will provide the basis for the annual contract reconciliation and cash settlement of the MDCH/CMHSP Mental Health Supports and Services Contract (GF Contract).

The CMHSP shall comply with Generally Accepted Accounting Principles, along with any other federal and state regulations as defined in the GF Contract. With the exception of the Special Fund Account – Section 226(a) of the Mental Health Code (MHC), all revenue and expenditures are required to be reported on an accrual basis of accounting. As such, the revenue and expenditure amounts reported must include all earned reimbursements and/or obligations regardless of whether they have been billed or collected. Additionally, any adjustments for uncollectible amounts or write-offs should be included. The FSR – All Non-Medicaid must reconcile to the CMHSP's general ledger.

The FSR – All Non-Medicaid is divided into sections for each program category. Each section of the FSR – All Non-Medicaid will evaluate the special considerations, services and funding arrangement as outline in the GF Contract for that particular program. Included in the instructions for completion of the FSR – All Non-Medicaid will be a brief narrative explanation of each section. The sections are:

- A Medicaid Services (CMHSP that is a PIHP Use Only)
- AC Adult Benefit Waiver Services (CMHSP that is a PIHP Use Only)
- B General Fund

### Other GF Contractual Obligations

- C SED – GF BENEFIT

- D MICHild – Mental Health

### Fee-for-Service

- E SED Waiver
- F Children's Waiver
- G Injectable Medications

### Other Funding

- H MDCH Earned Contracts

## 4.0 Report Specific Navigation or Terminology

Within this document the terms used in these instructions shall be construed and interpreted as defined below:

**Medicaid Contract:** The Medicaid Managed Specialty Supports and Services Concurrent 1915(b)/(c) Waiver Program Contract

**ABW Contract:** The ABW Non-Pregnant Childless Adults Waiver Section 1115 Demonstration Program Contract

**GF Contract:** MDCH/CMHSP Managed Mental Health Supports and Services Contract

**PIHP:** CMHSP that holds the Medicaid Managed Specialty Supports and Services Concurrent 1915(b)/(c) Waiver Program Contract and the Michigan ABW Non-Pregnant Childless Adults Waiver Contract with MDCH and acts as the Prepaid Inpatient Health Plan either for an affiliation of CMHSPs or as a stand alone PIHP

**CMHSP:** Community Mental Health Services Program that holds the GF Contract with MDCH

**FFP:** Federal Financial Participation; which is sometimes referred to as FMAP or Federal Medical Assistance Percentage. Both refer to the rate at which the Federal Government will match State dollars. For instance, a 75% FFP would indicate that for every \$100 spent, the Federal Government would fund \$75 and the State would need to provide \$25 in match.

**ARRA:** American Recovery and Reinvestment Act of 2009, enacted February 17, 2009. The ARRA provides for federally financed economic stimulus funding.

The Financial Status Report – All Non-Medicaid includes cell shading to assist the end user with completion of the form.

Report headers are shaded in light green.

Cells requiring data entry are shaded in yellow.

Cells that are formula driven and should not have data entered are shaded peach or light turquoise. The cells shaded in light turquoise represent sub-totals or totals.

Select cells have conditional formatting applied so that if an erroneous entry is made the cell will turn orange.

Worksheet protection has been enabled.

Precision as displayed functionality has been enabled. As such, Excel will utilize the displayed value instead of the stored value when it recalculates formulas.

The term “Submission Type” on the worksheet refers to the reporting period, i.e., 2<sup>nd</sup> quarter, 3<sup>rd</sup> quarter, projection, 4<sup>th</sup> quarter, Interim, Final.

The following numbering / sequencing have been utilized in the FSR All Non-Medicaid:

- 1 – 99 Indicates rows where FFPs have been entered
- 100 Title row for revenue
- 101-189 Detail rows for reporting revenue. May include sub-totals.
- 190 Total row for revenue
- 200 Title row for expenditures
- 201-289 Detail rows for reporting expenditures. May include sub-totals.
- 290 Total row for expenditures
- 295 Sub-total row identifying net surplus (deficit) prior to any redirection
- 300 Title row for redirection of funds (TO) and FROM
- 301-389 Detail rows for reporting redirection. May include sub-totals.
- 390 Total row for redirection of funds (TO) and FROM
- 400 Total row identifying the remaining balance. The balance is calculated by taking into consideration available revenue less expenditures and adjusting for any redirections (TO) or FROM. For each section, this row will indicate whether there can be a remaining balance (impacts fund balance, carry-forward, lapse), whether the remaining balance cannot be less than zero (MICHild where remaining balances will convert to local) or whether the remaining balance must equal zero (CMHSP must indicate how all surplus/deficits where addressed).

The FSR All Non-Medicaid – Column A: Column A is only used for select rows. Typically, for indicating values (FFP) or amounts that will be used in calculations. Each section that utilizes column A will contain language that identifies how the value or amount will be utilized.

The FSR All Non-Medicaid – Column B: Column B is used for reporting revenues, expenditures, redirection of funds, sub-totals and totals.

The FSR All Non-Medicaid – Row Layout: For the most part, all rows contain an alpha reference, a numeric reference, a description and then the amount associated to the listed elements. The alpha reference refers to the Section of the FSR (Medicaid, GF, etc). The number reference refers to the character of the line (revenue, expenditures, etc). The description could be a label (revenue, expenditure, etc) or a more detailed description of the item (CMH Operations, Categorical, etc). The redirection rows include at the end of the description a reference to the partner row.

For example – B 302 (TO) SED-GF Benefit– C 301, the “B” refers to General Fund, the 302 indicates that this row represents a redirection to another row, the “(TO) SED-GF Benefit” describes that GF funds are being redirected to SED-GF Benefit, the “C 301” indicates that the partner row (FROM row) is in Section C –SED-GF Benefit, row 301.

REDIRECTS – (TO) FROM – Each CMHSP is expected to maintain a balanced budget. However, it is acknowledged that funding and expenditures, by category may not always be equal. The “Redirected Funds (To) From” sections will be the mechanism in which the

CMHSP will identify how any funding surplus or deficit was resolved by category. The “redirects” will identify how surplus funds are used by other programs or how deficits were covered by other funding sources. In either case, the funding source must be a legitimate source of funding for the program the funding is being redirected to cover.

The redirection of GF to Medicaid requires prior approval of the MDCH.

Every “TO” redirection will have an off-setting “FROM” transaction. The converse is also true, for every “FROM” redirection there will be a “TO” transaction. The “TO” and “From” amounts will be equal; thus all redirections will sum to zero. Following is an example:

B 303 (TO) GF Cost of MICHild – Required Match – D 302 (\$10)

This line is within the General Fund section and indicates that \$10 is being transferred “(TO)” the MICHild section to fund expenditures and satisfy the GF match requirements.

D 302 FROM General Fund – Required Match – B 303 \$10

This line is within the MICHild section and indicates that \$10 is being received “FROM” the GF section to fund MICHild expenditures and satisfy the GF match requirements.

Redirection amounts are entered in the FROM redirects and automatically linked to the TO redirects as the opposite or converse amount.

#### **Row B-190 TOTAL REVENUE**

This cell represents the total GF services revenue available to fund current year expenditures. The cell is formula driven. The formula is the *sum of Subtotal – Current Period General Fund Revenue (B 120) and Subtotal – Other General Fund Revenue (B 140)*.

#### **Row B-200 EXPENDITURE**

This row is the label EXPENDITURE. The rows immediately following will represent the expenditures for services provided and authorized in the GF Contract. **Row B-201 - 100% MDCH MATCHABLE SERVICES**

Enter the amount of expenditures eligible for 100% state funding including the total in-home cost for specialized residential services started and/or transferred to CMHSP operations after March 30, 1981. In addition, any other expenditure for services authorized at 100% state match must be reported here.

Note: State and County Financial Responsibility is defined in Chapter 3 of the MHC. Additionally, Section 7.3 of the GF Contract lists services that do not require the CMHSP to provide the local match obligation; thus making those services eligible as 100% MDCH matchable services.

#### **Row B-202 - MDCH MATCHABLE SERVICES BASED ON CMHSP LOCAL MATCH CAP**

This cell represents the amount of 90/10% matchable services that are eligible for 100% state funding due to the CMHSP invoking 330.1308(2) of the MHC. Section 330.1308(2) of the MHC limits, in some cases, the amount of match funding required for a CMHSP that is an authority. When a CMHSP invokes Section 330.1308 of the MHC and limits the amount of match required, there is a shift of funding between local and 100% GF. The amount of expenditures eligible for 100% funding is represented here.

This cell is formula driven. The formula is *less GF Local Match Capped per MHC 330.1308 (M 203)*.

NOTE: The amount of expenditures that would have been covered by local fund is reported as a reduction (negative amount) in section M – Local Funds, row M 203 – GF Local Match Capped per MHC 330.1308.

#### **Row B-203 - 90% MDCH MATCHABLE SERVICES – COLUMN A**

State and County Financial Responsibility is defined in Chapter 3 of the MHC. As defined in the MHC Chapter 3, Section 330.1308, except as otherwise provided in Chapter 3 or subsections (2) and (3), and subject to the constraint of funds actually appropriated by the legislature for such purpose, the state shall pay 90% of the annual cost of a CMHSP. Additionally, Section 7.3 of the GF Contract lists services that do not require the CMHSP to provide the local match obligation; thus making those services eligible as 100% MDCH matchable services.

Enter the amount of expenditures eligible for 90% reimbursement.

**Row B-203 – 90% MDCH MATCHABLE SERVICES – COLUMN B**

This cell represents the net 90/10 expenditures eligible for state funding. The MDCH obligation for the 90% matchable costs are net of any related earned 1<sup>st</sup> & 3<sup>rd</sup> party revenue. Therefore, prior to calculating the MDCH obligation, the amount of 1<sup>st</sup> & 3<sup>rd</sup> party revenue must be taken into consideration. After calculating the MDCH and local commitment, the amount of 1<sup>st</sup> and 3<sup>rd</sup> party collections is added back to derive the total expenditures reported in the GF section of the FSR.

This cell is formula driven. The formula is *the sum of 90% Matchable Services (B 203, Column A) less 1<sup>st</sup> & 3<sup>rd</sup> Party Collections 90% Services (B 122) times 90% (.9), plus 1<sup>st</sup> & 3<sup>rd</sup> Party Collections (B 122).*

**Row B-300 - REDIRECTED FUNDS (TO) FROM**

This row is the label Redirected Funds (To) From. The rows immediately following will identify how surplus funds were used by other funding programs or how deficits were covered by other funding sources.

**Row B-301 - (TO) MEDICAID – REDIRECTED FOR UNFUNDED MEDICAID COSTS A-331 (PIHP USE ONLY).**

This row is only used by CMHSPs that are PIHPs. As identified in section 7.7.4 of the Medicaid Contract, MDCH approval to use GF for unfunded Medicaid costs is required.

**5.4 SECTION D MICHILD – MENTAL HEALTH**

Children under age 19 who are U.S. citizens or documented aliens not eligible for Medicaid, who do not have health coverage, and whose families meet certain income requirements and restrictions are eligible for MICHild. Please refer to the Medicaid Provider Manual for further details on mental health services and benefit restrictions. The CMHSP receives MICHild funding via a capitation payment based on per enrolled child per month methodology. The capitation payment processed to the CMHSP is for the federal share only. It is the responsibility of the CMHSP to supply the required match.

This section of the report will be used to report all revenues and expenditures associated to the MICHild program. A comparison will be made between revenue and expense to determine whether there is an overall surplus or deficit in funding. When a surplus in funding exists, as per Section 7.2.8 of the GF Contract, the unspent MICHild funds become local funds in the following FY. When an overall deficit exists, the CMHSP must report what funding will be used to cover the costs above the capitation received.

**ROW D-1 - ENTER CURRENT MICHILD FFP - COLUMN A**

The CMHSP receives MICHild funding via a capitation payment based on per enrolled child per month methodology. The capitation payment processed to the CMHSP is for the federal share only. It is the responsibility of the CMHSP to supply the required match. To assist in calculating the amount of required match, it is necessary to identify the FFP for the FY being reported on.

Enter, in Column A, the FFP for the FY being reported on.

Note: For user convenience, the default will be the current FY FFP.

**ROW D-190 - REVENUE**

The CMHSP receives MICHild funding via a capitation payment based on per enrolled child per month methodology. The capitation payment processed to the CMHSP is for the federal share only. Enter the amount of capitation received for MICHild.

**ROW D-290 - EXPENDITURE**

Enter the amount of expenditures related to providing mental health services, as defined in the Medicaid Provider Manual, to the MICHild population.

**ROW D-295 NET MICHILD SURPLUS (DEFICIT)**

This cell represents the net MICHild surplus or deficit prior to any redirection of funds. The cell is formula driven. The formula is *Revenue (D 190) less Expenditure (D 290)*.

**ROW D-300 - REDIRECTED FUNDS (TO) FROM**

This row is the label Redirected Funds (To) From. Although this row indicates both "TO" and "FROM" for consistency within the FSR, the MICHild section does not allow for any redirection to any other program. The rows immediately following the label "Redirected Funds (To) From" will identify the amount redirected to meet the match requirements and identify how the CMHSP addressed any deficit in MICHild funding.

**ROW D-301 - FEDERAL SHARE APPLIED**

As previously mentioned, the capitation payment to the CMHSP represents the federal only portion of the MICHild capitation rate. It is the responsibility of the CMHSP to supply the local match for the MICHild program. The amount in this cell will represent the amount of federal dollars utilized to fund MICHild expenditures. This cell is formula driven. The formula is an IF/THEN/ELSE statement. To assist with comprehension listed first will be the "common language" describing what the IF/THEN/ELSE statement will accomplish followed by the actual statement.

Basically, it is first being determined whether there is surplus funding when comparing the total available revenue (federal capitation and required GF match) to the expenditures. When the available revenue (federal capitation and required GF match) is greater than the expenditures there is a surplus in funding. When there is a surplus in funding, the federal share applied is equal to the federal capitation less the surplus. If there is not a surplus in funding, then the entire amount of federal capitation has been utilized and the federal share is equal to the amount of federal capitation.

The statement is as follows: *IF the Balance MICHild (D 400) is greater than zero, THEN Revenue (D 190) less Balance MICHild (D 400), ELSE Revenue (D 190).*

**ROW D-302 - FROM GENERAL FUND – REQUIRED MATCH - B303**

This cell represents the amount of GF funds that are being redirected to satisfy the MICHild match requirements. The determination of required match will be calculated based on the total MICHild expenditures. The cell is formula driven. The formula is an IF/THEN/ELSE statement. To assist with comprehension listed first will be the “common language” describing what the IF/THEN/ELSE statement will accomplish followed by the actual statement.

Basically, it is first being determined whether the amount of expenditures reported times the FFP is less than or equal to the amount of federal capitation. If the expenditures are less than the federal capitation, then the required GF match is equal to the expenditure amount times the GF FFP (100% less the federal FFP). If the expenditures are greater than the federal capitation, then the federal capitation has to be “grossed up” (capitation divided by federal FFP) to determine the minimum amount that would have to be spent to earn the entire amount of federal capitation received. The amount of federal capitation received is subtracted from the “grossed up” amount to determine the required GF match.

The statement is as follows: *Round - IF Expenditure (D290) times Current MICHild FFP (D1) is less than or equal to Revenue (D190), THEN Expenditure (D290) times the result of 1 minus the Current MICHild FFP (D1), ELSE Revenue (D190) divided by the Current MICHild FFP (D1) less Revenue (D190)*

**ROW D-303 - FROM GENERAL FUND – ABOVE REQUIRED MATCH – B304**

This cell represents the amount of GF funds being redirected to cover the costs of providing MICHild services above the capitation and mandatory match. Enter the amount of GF funds being utilized to cover all or a portion of the deficit in MICHild.

**ROW D-304 FROM LOCAL FUNDS – M304**

This cell represents the amount of Local funds being redirected to cover the costs of providing MICHild services above the capitation and mandatory match. Enter the amount of Local funds being utilized to cover all or a portion of the deficit in MICHild.

**ROW D-390 TOTAL REDIRECTED FUNDS**

This cell represents the total of redirected funds associated to the MICHild program. The cell is formula driven. The formula is the *sum of FROM General Fund – Required Match (D 302), FROM General Fund – Above Required Match (D 303) and FROM Local Funds (D 304).*

**ROW D-400 - BALANCE MICHILD (CANNOT BE < 0**

As the row title indicates, the amount in this cell cannot be less than zero. Any deficit in MICHild funding must be resolved. Any amounts greater than zero reflected in this cell will represent the unspent balance of MICHild which per the GF Contract will be converted to local funding in the following FY. This cell is formula driven. The formula is *Net MICHild Surplus (Deficit) (D 295) plus Total Redirected Funds (D 390).*

MDCH reimburses SED-DHS-Waiver enrolled CMHSPs on a fee-for-service basis for all services provided in accordance with the Medicaid Provider Manual, to those children that have been enrolled in the SED-DHS - Waiver.

The reimbursement to the CMHSP for SED-DHS will be at the gross amount. In other words, the amount paid to the CMHSP represents both the federal and state share of the funding of the fee screen or actual costs, whichever is less.

This section of the report will be used to report all FFS revenues and expenditures associated to the SED Waiver program. A comparison will be made between revenue and expense to determine whether there is an overall surplus or deficit in funding. When an overall deficit exists, the CMHSP must report what funding will be used to cover the costs above the fee-for-service reimbursement received.

## 5.6 Section F Children's Waiver

The Children's Home and Community Based Waiver Program (CWP) provides services that are enhancements or additions to regular Medicaid coverage to children up to age 18 who are enrolled in the CWP. The CWP enables Medicaid to fund necessary home and community based services for children with developmental disabilities who reside with their birth or legally adoptive parent(s) or with a relative who has been named legal guardian under the laws of the State of Michigan, regardless of their parent's income.

The CWP is a fee-for-service program administered by the CMHSP. The CMHSP is held financially responsible for any costs incurred on behalf of the CWP beneficiary that were authorized by the CMHSP and exceed the Medicaid fee screens or amount, duration and scope parameters.

**Row M-200 - EXPENDITURE**

This row is the label EXPENDITURE. The rows immediately following will represent the expenditures associated to the Local Fund obligations.

**Row M-201 - GF 10% LOCAL MATCH**

As defined in the MHC Chapter 3, Section 330.1302 except as otherwise provided in Chapter 3 or subsection (2), a county is financially liable for 10% of the net cost of any service that is provided by the department, directly or by contract, to a resident of that county. This cell represents the 10% share of the 90/10% services (Section B – General Fund, Row B 203). This cell is formula driven. The formula is 90% MDCH Matchable Services – Column A (B 203) less 90% Matchable Services – Column B (B 203).

**Row M-202 - LOCAL MATCH CAP AMOUNT**

Within certain conditions, Section 330.1308(2) of the MHC limits the amount of local match required of a community mental health authority to the amount of local match provided in the year in which the program became a community mental health authority. If the conditions as defined in the MHC have been met, enter the amount that the CMHSP local match has been capped at.

NOTE: The Local Match Cap amount should not be entered unless the CMHSP is invoking Section 330.1308. An amount entered in the cell indicates that the CMHSP has invoked Section 330.1308.

The MDCH is not obligated to provide additional state funds because of the limitation on local funding levels.

In Section Q – Remarks, the CMHSP must include notations on the calculation of the local match amount.

**Row M-203 - GF LOCAL MATCH CAPPED PER MHC 330.1308**

When a CMHSP invokes Section 330.1308 of the MHC and limits the local match required, there is a shift in funding from local to 100% GF. Therefore it is necessary to reduce the equivalent amount of local match previously identified on GF 10% Local Match (M 203). The amount in this cell will be displayed as a negative; thus reducing the required 10% local match. This cell is formula driven. The formula is an IF/THEN/ELSE statement within another IF/THEN/ELSE statement embedded. To assist with comprehension listed first will be the “common language” describing what the IF/THEN/ELSE statement will accomplish followed by the actual statement.

Basically, the formula is first looking to see if the CMHSP has invoked Section 330.1308 of the MHC. If the CMHSP has not invoked Section 330.1308, then a zero is entered for the GF Local Match Capped per MHC 330.1308 (M 203). If the CMHSP has invoked Section 330.1308, then the formula is comparing the sum of the 10% local match (M 202) and the Local Contribution to State Medicaid Match (M 205) to the Local match cap amount (M 202). If the sum of the 10% local match and the Local Contribution to State Medicaid Match is greater than the local match cap amount, then the formula calculates the amount by which the local match is reduced. The result of

this calculation will be displayed as a negative amount, thus reducing the amount of local funding being utilized.

The IF/THEN/ELSE statement is as follows: IF the Local match cap amount (M 202) is equal to zero, THEN zero, ELSE IF the GF 10% Local Match (M 201) plus the Local Contribution to State Medicaid Match (M 205) is greater than the Local match cap amount (M 202), THEN less GF 10% Local Match (M 201) less Local Contribution to State Medicaid Match (M 205) plus Local match cap amount (M 202).
